African American Chamber of Commerce of Western Pennsylvania Networking Mixer

Silhouetted by a Pittsburgh skyline, members of the African American Chamber of Commerce of Western Pennsylvania gathered for a networking cocktail party on Mt. Washington. Associate Member Don Kortlandt and his wife, Anna Singer, opened their Grandview Avenue home with a breathtaking view to more than 60 guests for the Chamber's monthly networking event. "It's a way for our members to talk to each other informally, to exchange business cards, and to find out what each other does so they can work together," says president and CEO Doris Carson Williams.
