The African American Chamber of Commerce of Western Pennsylvania announces its new "Ask the Expert" program, beginning in September.

The "Ask the Expert" program is a service that will be offered not only to Chamber members, but also to the general public as part of the Chamber's Business Institute.

Each Thursday, beginning **September 2, 2004**, the Chamber office will host industry experts who will be on hand to answer questions and provide important information pertaining to that week's business-related topic. Those who would like to participate can simply call the office at **(412) 392-0322** between the hours of 9:00 AM and 12:00 noon to speak confidentially to professional consultants, who can offer valuable advice or answer specific questions relating to their fields of expertise.

The topic for the September 2nd installment of the "Ask the Expert" program will be Credit Restoration & Repair.
